

Malden is a city of rich History. Although we shall not forget that History, if we do not soon begin to move forward, we will inevitably be left behind....

Malden works best when we work together, when we focus on the goals we share rather than the differences that may divide us. Through collaboration, and with a focus on practical solutions rather than politics, on innovation rather than ideology, together we can realize this vision and make Malden a safe, affordable, vibrant and unified city for all. I am honored to serve the people of Malden as your Mayor, and I am eager to work with all of you to achieve our common goals.

We are a city that shares a common vision. We want our city to be safe and secure for everyone. We want our city to be affordable, and to provide opportunities for people of all backgrounds who live in the city, to raise a healthy family, and lead productive lives. We want our city to be sound with clean communities, active livable neighborhoods, and a thriving economy that grows. We want an innovative, accountable City Government that delivers on its public commitments smartly and transparently.

Shortly after taking office, Mayor Kooyman implemented his vision for Malden “**Open for Business**”.
